Programing/Events

Page Public Library supported and hosted multiple programs. These programs promoted community building engagement, provided accessible education, and supported local students.

Puzzle Tournament

The Library has hosted several puzzle tournaments, which continue to be popular and well attended. This program fosters community engagement and connection while also supporting cognitive stimulation and mental wellness. Participants compete in teams of up to four members, racing to be the first to complete the same puzzle.

Adult Cooking: Air Fryer Appetizers

This session was the second in a four-part adult cooking series centered on air fryer recipes. The series features breakfast, appetizers, desserts, and will conclude with dinner recipes. Participants engaged in interactive, hands-on cooking experiences—preparing recipes together in class while learning practical tips and techniques for using an air fryer effectively.

School Tours

The Page Public Library Youth Department coordinates educational tours in partnership with local schools. These visits provide students with an engaging storytime, hands-on craft or activity, and the opportunity to check out library materials to enjoy at home. In January, the Library partnered with the Page Early Childhood Learning Center and Glen Canyon Outdoor Academy to host nine tours, welcoming a total of 293 students.
