MEETING NOTICES

This agenda may be subject to change up to 24 hours prior to the meeting.

Pursuant to A.R.S. §38.431.02, notice is hereby given to the members of the City Council and to the general public that the Page City Council will hold a meeting open to the public. Supporting documents and Staff reports, which were furnished to the City Council, with this agenda, are available for review at cityofpage.org or at the City Clerk's Office. Councilmembers of the City of Page City Council will attend either in person or by technological means. City Council may vote to go into Executive Session for the purpose of obtaining legal advice from the City Attorney on any item listed on the agenda, pursuant to A.R.S. §38-431.03 (A)(3). City Council may modify the agenda order, if necessary.

Persons with disabilities should call the City Clerk's Office, at 928-645-4205 for program and services information and accessibility.

NOTICE TO PARENTS: Parents and legal guardians have the right to consent before the City of Page makes a video or voice recording of a minor child A.R.S. §1-602.A.9.

City Council meetings are audio and video recorded. Parents or guardians may either submit a written consent to the City Clerk's Office, or by allowing a minor to be present and/or participate in the meeting, parents or guardians waive this right.

If you would like to receive email notification for City Council agendas, please sign up for subscriptions on our website at cityofpage.org.

TO: Honorable Mayor Steven Kidman & Page City Council
Page City Clerk

FROM: Bryan Hill, PE, General Manager

CC: Frank Marbury, Page City Manager

DATE: April 30, 2026

RE: Board Recommended Budgets for Page Utility FY 2026-2027

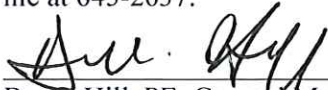

The PUE Board recommends to Page City Council the attached budgets for electric, water, sewer and refuse for fiscal year 2026-2027.

During the regularly scheduled PUE Board meeting conducted April 21, 2026, the Board reviewed and unanimously passed a motion to recommend the attached budgets to Page City Council for review, edits, comments and approval.

Additionally, the Utility Board seeks specific direction from Council on FY26/27 Fund 52. This direction is in regards expences associated with Lake Powell National Golf Course irrigation. These expenses were the subject of the Boards letter to Council dated January 14, 2026..

We also confirm the date of May 13, 2026 for our annual "joint meeting" pursuant to City Code, Section 31.59 (C) at 4:30 p.m. in Council Chambers. This "joint meeting" is to review the proposed budgets in detail, answer any questions, and make any desired changes to the budgets.

If there are any immediate questions or need for clarification, please do not hesitate to contact me at 645-2637.

Bryan Hill, PE, General Manager

Notes to the Budget for 2026-2027

1	Actual revenues for 2025-6 are in line with the budget for 2025-6 so it is not proposed to make any changes to revenue expectations.
2	This budget has been left unchanged. There are a number of projects currently under discussion but it is not known how many of these will materialize.
3	There is a contractual rate increase annually plus this year, there have been more connections made to our poles.
4	As the generators have not been run in a revenue-earning capacity, in the last year, this budget ha been removed.
5	The calculation has been done assuming only 3% interest on our current cash balances at LGIP.
6	It is estimated that only one additional fuel delivery will be needed for the generators in the coming year.
7	For this first version of the budget, we have left the assumed cost of purchased power at the 2025-26 budget levels. The move over to SPP next year and the decreasing availability of hydro are two big unknowns.
8	It is important for us to remain competitive in the labor market and an increase of 5% has been built into these figures. They will not be across-the-board increases but rather performance driven. Time Capitalization: 1/3 of Linemen, 1/2 of Construction and \$70,000 of administration salaries.
9	ASRS contribution rates effective 7/1/26 are decreasing slightly from 12% to 11.98% but the budget has been increased because of the budgeted salary increases.
10	We have been notified of a 4% premium increase effective July 1st.
11	These budgets have been increased in the light of actual expenditure in 2025-26 and current fuel price uncertainties.
12	All major repair work on the fleet has been completed and so only routine maintenance is being budgeted.
13	Last year's premium increase was larger than budgeted but still far less than the commercial premiums paid in previous years. We have also been billed an additional premium this year for the storage tanks at Powell Substation.
14	This has been increased to allow for additional external IT support.
15	Training and text book costs have increased and with two apprentice linemen the budget has been increased.
16	Since we stopped accepting American Express as a payment method, our credit card costs have come closer to budget however, we have been notified of increases this Spring from our two remaining processors.

2026-2027 Budget as at April 22, 2026 for Council Approval								
FUND 50: ELECTRIC								
Chart of		Actuals	Actuals to	Actuals	Actual	Proposed	Budget	
Accounts	Description	FY 23/24	FY 24/25	to 12/31/25	Budget	Budget	Variance	NOTES
					FY 25-26	FY 26-27	25/26-26/27	
17	Upgrade to the urea system on a third generator is being budgeted in anticipation of more stringent ADEQ emissions requirements.							
18	This budget includes a card reader system for external access to the Board room and refurbishment of the parking lot at 640 Haul Road.							
19	It is proposed to change out the street light heads on the poles on Lake Powell Blvd to LED.							
20	The majority of the work on the new bay at Powell Substation will be completed by June 30. This budget allows for the commissioning which will take place after July 1.							
21	Bucket truck to replace E34 purchased in 2004 (not available for delivery until January 2028)		\$280,000					
	Backhoe replacement for E28 purchased in 1997		\$195,000					
	F350 Truck -replacement for E07 purchased in 2009		\$73,000					
	Asphalt machine		\$100,000					
			\$648,000					
22	The development of the disaster recover plan has been completed. The reduced budget it to allow for implementation.							
23	It is proposed to replace outdated non-supported GE hardware at both Slavens-Savage and Powell substations with SEL Schweitzer hardware to communicate with upgraded iPower SCADA software.							
24	When financial reserves allow, we budget a place-holder figure of \$100,000 for any Council or Board directed capital projects.

FUND: 51 WATER				Current Year	Current	Proposed	Budget	
New Chart of		Actuals	Actuals	Actuals to	Budget	Budget	Variance	Notes
Accounts	Description	FY 23/24	FY 24/25	31-Dec-25	2025-2026	2026-2027	25/26-26/27	
Notes to the Budget for 2026-2027								
1	No increase in rates or demand has been assumed.							
2	The calculation has been done assuming only 3% interest on our current cash balances at LGIP.							
3	Financing for the expansion of the Water Treatment Plant is expected to come from an EPA grant, a WIFA loan and our own cash reserves.							
4	Market research has shown that salary increases for this industry are running at around 3%. We have therefore assumed 3% for this budget to keep us competitive in the marketplace. This will not be an across-the-board increase but rather performance driven. At year-end we have capitalized time on projects for several years but have never made any budget assumptions about this. However, in each of the last two years we have capitalized in excess of \$60,000 of time and on-costs for Sewer and Water. This year we are budgeting to capitalize \$30,000 of Water Fund salaries plus on-costs.							
5	We have been notified of a small decrease in the ASRS retirement contribution rates but the budget has been increased because of the budgeted salary increases.							
6	Budgets have been increased in light of actual expenditure year-to-date and fuel price uncertainties.							
7	We have been notified of a 4% premium increase on medical insurance.							
8	Since we stopped accepting American Express as a payment method, our credit card costs have come closer to budget. However, we have been notified by our two remaining processors of rate increases effective this spring.							
9	The consultancy budget has been reduced as we can start capitalizing costs from Carollo Engineers, NEXXUS & Aztec Environmental as soon as all stakeholders have signed off on the project. We have an estimated project cost of \$6.2 million with funds from EPA grants, a WIFIA loan and the balance from our cash reserves. As the project will not be completed by June 30, 2027 the capital cost is not being recognized in this budget and will be treated as work-in-progress..							
10	This budget allows for the installation of water meters on new construction and for a 50 meter pilot Landis & Gyr electronic water meter reading test. This year we were given 50 meters by a company seeking our business. Results have been acceptable but we will compare the two systems before making a final decision on full deployment.							
11	The following upgrades are being proposed by management:							
	Major valve replacement - this continues the annual upgrade						\$	50,000
	Commercial meters - annual upgrade						\$	40,000
	Trench box- for safe excavations						\$	16,000
	3 Pressure reducing valves (2 at Scenic View and 1 at Airport)						\$	180,000
	Design/capacity upgrade- - placeholder figure -costs currently unknown						\$	395,000
							\$	681,000
12	Financing has been secured for this first phase. We are currently going out to bid both for technical expertise and construction proposals. The actual cost is unknown until the bids have been evaluated. However, we need to recognize the likely cost to ensure that the project remains within the City of Page spending limitations.							
13	The environmental and design work for the intake and pipeline project will occur at the same time as the Water Treatment Plant expansion but it is expected that these costs will be reimbursed by EPA. However, we need to recognize the likely cost to ensure that this part of the project also remains within the City of Page spending limitations.

Notes to the Budget for 2026-2027												
1	No increase in rates or the number of customers has been assumed.											
2	Sewer dumping revenue has not reached the expected levels this year. The two largest dumping customers have both had technical problems again. The meters will also be check to ensure they are reporting accurately.											
3	The calculation has been done assuming an average of 3% interest on our current cash balances at LGIP.											
4	These budgets have been increased in light of this years current actual costs and fuel price uncertainties.											
5	Market research has shown that salary increases for this industry are running at about 3%. We have used this increase for the budget. This will not be be an across-the-board increase but rather performance driven. At year-end we have capitalized time on projects for several years but have never made any budget assumptions about this. However, in each of the last two years we have capitalized in excess of \$60,000 of time and on-costs for Sewer & Water. This year we are budgeting to capitalized \$30,000 of Sewer Fund salaries plus on-costs.											
6	We have been notified of a small decrease in the ASRS retirement contribution rates but the budget has been increased because of the budgeted salary increases.											
7	We have been notified of a 4% increase in medical insurance premiums											
8	Since we stopped accepting American Express, our credit card expenses have come closer to budget. However, we have been notified by our remaining two processors that there will be rate increases effective this spring.											
9	The following upgrades are being proposed by management:											
	Chlorine turbidity analyzer panel					\$	15,000					
	John Deere Gator(replacement for ATV003 purchased 2008)					\$	15,000					
	Sun protection for Clarifiers					\$	15,000					
	Sensors & AED Safety					\$	9,000					
	Upgrade SCADA					\$	12,000					
	New Control panel-Scenic View lift station					\$	150,000					
	Filter upgrade (Placeholder figure from Fann)					\$	800,000					
						\$	1,016,000

INCREASE/(DECREASE) IN CASH BALAN	128,021	129,617	65,953	130,001	111,822	-18,179

LGIP & Bank - Closing Balance 1,328,710 1,456,976 1,523,499 1,586,977 1,698,799 111,822

Notes to the Budget for 2026-27

- There has been a five-year extension to the City of Page contract with Republic for residential garbage collection. We have been notified of a small increase in rates which went into effect on March 1, 2026. We do not include a markup on second cans. We only charge our customers for a second can, what Republic charges us.
- The calculation has been done assuming 3% average interest on our cash balances at LGIP.
- Contract Service costs include the payment to Republic Services at the rates set out on their recent letter to the City Manager.
- Since the landfill closed there has been annual monitoring done by SCS Services at a cost of just over \$1,000 per year. Additional monitoring of ground water was required in 2025. What additional monitoring will be required going forward is still unknown but the budget has been decreased in light of actual expenditure this year.
- Credit card charges are apportioned across all funds. Since ceasing to accept American Express our charges are more in line with our budget. However, we have been notified by our two remaining processing companies of cost increases coming into effect this spring.
- ADEQ has notified us of a new annual monitoring fee of \$3,500 until 2030 when the monitoring of the old landfill will cease.

January 14, 2026

Mayor and City Council of Page, Arizona,

For many years Waste Water Utility (Sewer Fund 52) has funded the Golf Course Irrigation infrastructure and upper golf course pumping power costs. Examples of this extraordinary support are irrigation stations, pump building maintenance, out-of-town consulting support, controls and drive systems, computer hardware, software & software support, piping, valves, sprinklers etc. & etc. The historic arguments for this practice have been to assist the Golf Course with operational losses as well as the Utility's need to dispose of the effluent water.

Normal Utility operating practice would simply make use of portable water cannons and pump the effluent from the lower pump house. The Utility would primarily distribute water on the old lower golf course and only occasionally using areas of the upper golf course as needed to dispose the class A effluent into the desert. This practice would allow Page the full benefit of the recharge credit. The cost of power for the upper pump stations & the cost of the complex/sophisticated Irrigation equipment required to maintain fairway grass and golf course greens acts to distort the true cost of operating both the Waste Water Utility and Lake Powell National Golf Course. Also, please consider the Golf Course is being provided with free water that would add up to over a few hundred thousand a year per Council Approved Rates. (50% of potable water cost).

Accordingly, PUE Board proposes Page City Council consider moving the costs of irrigation infrastructure & Golf Course power costs from Fund 52 to LPNGC starting FY 26/27 Budget. The Irrigation infrastructure costs are approximately \$95,000 per year, and power costs for the upper pumping stations and controls are approximately \$72,000 (total of \$167,000).

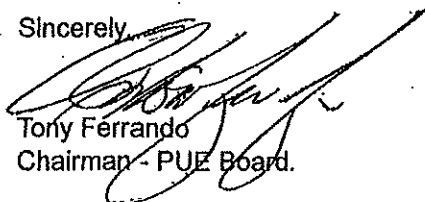

The Board suggests this move would better represent the true costs of operations for both the Golf Course and the Waste Water Utility and help defer a future rate increase to the Waste Water Utility customers. During the regularly scheduled PUE Board meeting conducted on January 13, 2026, the Board voted unanimously to ask Page City Council to consider these proposed Budget Changes for FY 26/27.

The numbers below are from the attached sheet showing breakdowns as discussed.

- 2023-2024 cost for the above items totaled \$512,086.00 including the cost of free effluent water.
- 2024-2025 cost to date is \$470,982.00 including the cost of free effluent water.

Thank you in advance for considering the Board's request. Please contact us with any questions regarding this proposal.

Sincerely,

Tony Ferrando
Chairman - PUE Board.
